Warm Wishes from **Object Arena Software Solutions Private Limited**, established in the year of 2001. Our Company is well known for our reputed services in offering seminars, workshops, trainings and research based projects for various institutions and industries. We are **IBM Business Partner**, Promoting various IBM products and services. Apart from the IT services, our company also provides entrepreneurship training for students to transfer their ideas into a strong business project with the help of our internship program.

Our training include **Deep Learning, Python, IOT, Big Data with Hadoop, Spark, R Programming, Digital Marketing, Data Science, Informatica, Tableau, Lamp and Android Application development using Work light, Network Security** etc. Our services include **infrastructure providers, Product resellers, Placament consultant, Career Development Center and Software development etc.,**

Deep Learning With massive amounts of computational power, machines can now recognize objects and translate speech in real time. Artificial intelligence is finally getting smart.

Python Object-oriented programming is possible with Python, a computer language which is gaining traction and carving a niche for itself in the high performance computing space.

Internet of Things, or IoT in short, is the idea of making devices and objects smarter by linking them to the internet. With IoT, you could for example have a fridge notify you when there's no milk. IoT has promising applications for smart homes, wearable devices, smart cities, connected cars and more.

Big Data Hadoop training will make you an expert in HDFS, MapReduce, Hbase, Hive, Pig, Yarn, Oozie, Flume and Sqoop using real-time use cases on Retail, Social Media, Aviation, Tourism, Finance domain.

Apache Spark a popular cluster computing framework used for performing large scale data analysis.

R Programming course covers practical issues in statistical computing which includes programming in R, reading data into R, accessing R packages, writing R functions, debugging, and organizing and commenting R code.

Data Science course gives an overview of the data, questions, and tools that data analysts and data scientists work with.

Informatica course aims to teach the complete Data Warehousing Concepts

Tableau course aims to teach the data visualizations and communications

Lamp covers the basis for web designing like Linux, Apache, MySql and PHP

IBM Worklight is part of the IBM Mobile Foundation family of products that provides the essential elements needed for complete mobile development, deployment and management within a business.

Digital marketing course make you expert in advertising delivered through digital channels such as search engines, websites, social media, email, and mobile apps.

Network Security covers the process of network security, including intrusion detection, evidence collection, network auditing, and contingency planning against attacks.

Our prime motto is to fulfill the needs of the students in every aspect of our work. We create sustainable value for our students by exceeding the expectation of the students and focusing on their growth and opportunities. We conduct workshops and seminars to impart industry relevant knowledge and technology-based skills to the students and mold them as industry ready candidate. We are happy to serve your students and employees.

"Training makes Men Perfect"

Our Services:

Government Sector: we are regularly conducted various courses through MSME.

Corporate Sector: A perfect blending of customized training for the corporate to enhance their knowledge in the new technology and ensure their career growth.

Educational Institutions: We have conducted several programs with IIT , VIT, Sastra University, Anna University, Saveetha University, Sathyabama University, Hindustan University, Loyola Institute of Technology, Aadhi Engineering College, Chennai, Adhi Sankara engineering college. . We have taken **IOT into the school level**. Several school students were actively participated and won many prizes from IOT School of Things conducted with Loyola.

Professionals (Individuals): Professional(s) who are interested to upgrade their career, we can guide them hands on hand to build up better society.

Customers: IBM, Wells Fargo - India, Wipro - India, High Performance Computing Shell, Nigeria, Sopras Group - India, Square D - India, Rage Communications and many more

We assure you our best services always.
